Please make sure you are parking in the emp lot.  
Thursday they will start vaccinating patients.  
Patients will need the space in the structure during these clinic hours.  
Patients clinic starts this Thursday, 1/28, from 9a-4p.  
It is anticipated that there will be well over 100 patients each day.  
There will be monitoring and staff stopped as necessary.

Please do your part to make room for our patients as most early vaccinations will be elderly and we must make all considerations for them to get access readily and easily.

Thank you.
